Experience

Research:

Postdoctoral researcher, CMRL, civil eng. dept., Johns Hopkins University, Baltimore, MD, USA
Feb 2014-Present

Task: Adaptive enrichment of the Crystal Plasticity Finite Element Model (CPFEM)
Principal Investigator: Prof. Somnath Ghosh
Skills: Finite deformation, wavelet decomposition and hierarchical FEM for crystal plasticity

Doctoral student researcher, COHMAS, KAUST, Saudi Arabia
2010-2014

Thesis title: A hybrid local/nonlocal framework for the simulation of damage and fracture
Advisor: Prof. Gilles Lubineau
Skills: Development under C++ and OpenMP, non-local mechanics, damage mechanics, non-local fracture mechanics, coupling methods

Research intern, Sandia National Lab at Albuquerque NM, USA
Summer 2011

Task: Development of composite models on EMU
Advisor: Dr. Stewart Silling
Skills: Development under FORTRAN and MPI, non-local mechanics, damage mechanics, laminated composite theory

Graduate student researcher, LMT Cachan, France
Spring 2010

Thesis title: Two optimization algorithms by multi-time-stepping for explicit dynamic simulations
Advisor: Prof. Christian Rey
Skills: Domain decomposition, multi-time stepping, 2D FEM solution in MATLAB

Research intern, Department of Mechanical Engineering, UC Berkeley, CA, USA
Summer 2009

Task: Simulation of embed SiC sensor in composite structures
Advisor: Prof. Albert P. Pisano, Prof. Debbie Senesky
Skills: Simulation in Abaqus, stress criteria in anisotropic models

Teaching:

Volunteer instructor at the Station North Tool Library, Baltimore, MD, USA
2015-Present

Topics: Acoustics and Metallurgy
About 60 students, 40 hours of instruction

Teaching Assistant, *advanced FEM and multiscale methods*, JHU, Baltimore, MD, USA
2015

Professor: Professor S. Ghosh

Substitute lecturer for *Introduction to Finite Elements*, KAUST, Saudi Arabia

2013

Topics: Solved problems on weak and strong form concepts
Professor: Prof. Gilles Lubineau
Two 1.5 hours class for about 20 students

Private tutoring, Paris, France

2005-2009

Topics: High school and college mathematics, physics and French literature
About 400 hours for 6 students

Education

Ph. D. in Mechanical Engineering, King Abdullah University of Science and Technology (KAUST), Saudi Arabia

Graduated in Feb 2014

M. S. in Mechanical Engineering, Advanced Techniques in Structure Calculus (TACS), ENS de Cachan

Graduated in 2010

B. S. in Mechanical Engineering, ENS de Cachan, France

Graduated in 2008

Classe Preparatoire, Lycée Saint-Louis, Paris, France

2005-2007

Baccalauréat, French high school equivalent, El Jadida, Morocco

Completed in 2005

Skills

Mechanical engineering

Theoretical skills

Computational mechanics, local continuum mechanics, non-local fracture, non-linear solver, Peridynamics, damage mechanics, dynamic simulation, laminate theory, XFEM/GFEM, homogenization methods, coupling methods, wavelet methods, FFT methods, hierarchical FEM, DG/FEM, CAD-CAM

Experimental skills

Preparation of composite laminate (vacuum infusion, molding, curing and post-curing), metal casting and working, long distance microscopy, indentation test, traction and micro-traction test, image correlation, CNC machining and rapid prototyping, wood working

Languages

Fluent in French and English, conversational in Spanish and Arabic

Programming

Languages: C, C++, FORTRAN, HTML/CSS, Javascript, MATLAB
Libraries: OpenMP, MPI, Cuda, OpenGL shaders

Software

OS: Windows, Mac, Linux
Engineering: Comsol Multiphysics, Abaqus, CATIA, Solidworks, Mathematica, EMU, Tecplot, Paraview
General: Latex, Adobe Illustrator, Photoshop, Premiere

Conferences and publications

Peer reviewed publications:

Awards, recognition and fellowship

Crowdfunding research project: $2611 granted	2016
Member of USACM	2015-present
KAUST Provost academic achievement award: $10000 granted	2010-2011
KAUST Ph.D. student fellowship	2010-2014
ENS *Normalien* fellowship	2007-2010

Additional information

Sport:	Soccer, squash and natation
Volunteering:	Instructor in KAUST for WEP (2013)
	Instructor in the Baltimore Station North Tool Library (2015-present)
Music:	Derbuka (traditional Arabic hand drum)
Hobbies:	Steel forging, gardening, photography, and astro-photography
